

Briggs & Stratton Limited Warranty for SimpliPHI ESS

1) Warranty Coverage

Subject to the terms of this Limited Warranty, Briggs & Stratton, LLC (“Briggs & Stratton”) provides this Limited Warranty to the Covered Owner (defined below) for the product(s) covered by this Limited Warranty listed below and installed for use at the original end user location (the “Original Location”) (each a “Covered Product,” or “Product”), for the applicable product Warranty period set forth below (each, a “Warranty Period”), provided that the Original Location is located within the United States, United States territories (including Puerto Rico, Northern Mariana Islands, U.S. Virgin Islands, American Samoa, and Guam), and Canada. This Limited Warranty is valid only when the Covered Products are sold by an authorized reseller, distributor or Briggs & Stratton itself and is valid to the extent permitted by the applicable laws of the jurisdictions mentioned above.

BRIGGS & STRATTON MAKES NO OTHER EXPRESS WARRANTIES OF ANY KIND, AND ALL IMPLIED WARRANTIES, INCLUDING WARRANTIES OF MERCHANTABILITY OR FITNESS FOR ANY PARTICULAR PURPOSE ARE LIMITED TO THE DURATION OF THIS LIMITED WARRANTY.

Some states do not allow limitations on how long an implied Warranty lasts, and/or the exclusion or limitation of indirect or consequential damages, so the above limitation and/or the above exclusion may not apply to you.

2) Warranty Period

<u>Covered Product</u>	<u>Model #</u>	<u>Warranty Period</u>
SimpliPHI Inverter	SPHI-IN-6	10 years
SimpliPHI Battery	SPHI-B-4.9	10 years
SimpliPHI Conduit Box	SPHI-CB	10 years
EnergyTrak Gateway	ET-GWY	5 years

Limited Warranty begins from the original date of installation at the Original Location based on online registered Limited Warranty and activation of the system. For systems in which Limited Warranty is not registered, Limited Warranty period begins on the original date of purchase from Distributor or Supplier.

3) Warranty Claims

The liability of Briggs & Stratton under this Limited Warranty shall be limited to the repair of the Products or, at Briggs & Stratton's sole discretion, replacement of the Product(s). If the Product(s) are found to be defective as a result of any manufacturing defect in materials and workmanship during the Warranty Period, Briggs & Stratton will either (i) repair the defective Product or, at Briggs & Stratton's sole discretion, (ii) replace the Products with new, reconditioned parts or similar parts of equivalent depreciated value. If a Product is replaced, the returned Product will become the property of Briggs & Stratton and must be sent to Briggs & Stratton free of any third-party ownership claims.

The Warranty Period of any repaired Product or its replacement is twelve (12) months from the date of shipment from Briggs & Stratton, or the remaining term of the Warranty Period, whichever is greater.

Alternatively, Briggs & Stratton may elect, at its sole discretion, to provide cash compensation equal to the Product's value depreciated on a straight-line basis over the number of years of the Warranty Period. For example, if an Inverter, having a Warranty Period of 10 years, is found to be defective as a result of a manufacturing defect after 5 years, Briggs & Stratton may elect, at its sole discretion, to provide cash compensation equal to 50% of the original value of the Inverter.

4) Product Activation & Internet Connection Requirements

In order to provide the highest level of service and support for the full term of the Warranty period, Briggs & Stratton recommends SimpliPHI ESS components, specifically the Batteries and Inverters, to be activated, to be connected to the Internet, and to maintain such connection throughout the Warranty Period. Internet connection is established via the EnergyTrak Gateway. See EnergyTrak Gateway Installation and Use Manual for further details. Even if an internet connection is not possible for each and every inverter in a system, at least one must be connected. By installing the SimpliPHI Inverter and connecting it to the Internet, Customer agrees that Briggs & Stratton may remotely monitor the use and condition of the system and update the system's software and firmware as necessary without further notice. If the Inverter loses Internet connection for an extended period, Briggs & Stratton may not be able to provide important remote upgrades. In such cases, Briggs & Stratton will try to notify Customer, if possible, in order to reestablish connectivity; however, if the system remains offline for three (3) consecutive months, the term of the Limited Warranty with respect to the applicable Battery or Inverter may be reduced to 5 years, subject to the terms and conditions of this Limited Warranty. For example, if an Inverter, having a Warranty Period of 10 years, loses internet connectivity for 3 consecutive months 3 years after the date on which the Warranty Period began, the term of the Limited Warranty may end 5 years after the date on which the Warranty Period began.

defective. If Briggs & Stratton determines that Warranty service is required, Technical Services will assist in getting authorization for a Return Material Authorization (“RMA”) number and instruct you how to submit the RMA through ESSTech@basco.com.

Once all required information is gathered, Technical Services will determine if the request is covered under the Limited Warranty and will issue an RMA number.

If Technical Services determines the RMA Request to be In Warranty, please ensure the following to receive Warranty service:

- Pack the product(s) in original shipping container / packaging (or equivalent packaging) for return to the address provided by Technical Services
